INDIAN JOURNAL OF THEORETICAL PHYSICS

BOARD OF EDITORS

Dr. K. C. Kar, D. Sc.

Dr. B. Sen, D. Sc.

Dr. M. Ghosh, D. Sc.

Dr. P. P. Chattarji, D. Phil.

Dr. (Mrs.) C. Dutta, D. Phil. (*Secretary*)

J. Biswas, M. Sc. (*Asst. Secretary*)

A. Bhattacharyya, M. Sc. (*Asst. Secretary*)

VOLUME 16

1968

VOLUME 16

CONTENTS

March

	<i>Page</i>
On the theory of relativity	
— <i>K. C. Kar and Mrs. C. Dutta</i>	1
A note on finite deformations of a composite cylinder of barium titanate	
— <i>Hari Sankar Chakrabarty</i>	7
A note on responses of a piezoelectric plate-transducer owing to prescribed inputs	
— <i>N. C. Das</i>	33
On the bending of an annular plate of variable rigidity under the combined action of uniform compression and uniform load	
— <i>P. K. Ghosh</i>	39
Book Review	47

June

Radial deformations of two concentric layers of ceramic intervened by a concentric layer of piezo- electric quartz	
— <i>Sachindra Kumar Bakshi</i>	49
A note on the slow and steady flow of viscous fluid within two rotating confocal prolate spheroid	
— <i>K. Sengupta</i>	57
Locus of the image of a point-object due to liquid surfaces swept over by waves	
— <i>Arun Kumar Gupta</i>	63
On finite deformations of a long rotating cylinder of piezoelectric material	
— <i>D. K. Sinha</i>	81

September

- On an approximate form of H-functions for isotropic scattering (non-conservative) —*Sitansubimal Karanjai* 85
- A note on the deformation of an electrostrictive prismatical bar —*P. Roy* 95
- Torsion of a hollow circular composite cylinder of cylindrically aeolotropic material under tangential tractions acted on the inner surface, outer surface being fixed —*P. R. Ghosh* 101
- Note on the forced torsional vibration of an aeolotropic cylinder having periodic shearing forces along a ring on the curved surface —*D. Chatterjee* 111
- Book Review 115

December

- On the propagation of gravitational fields through non-empty spaces —*R. A. Singh* 117
- Stresses due to a nucleus of thermo-elastic strain in a composite ring —*S. C. Bose* 123
- On the deformation and stresses in an earth model with a rigid core —*S. R. Maiti* 137
- Stresses due to a small elliptic hole on the neutral axis of a deep rectangular beam subject to flexure under shear —*C. B. Mishra* 147
